MYFACE CADAVERIC COURSE 2018

13 – 14 May 2018

Academia, Singapore

COURSE DIRECTOR

Dr Elias Tam

President of International College of Surgeons – Singapore Chapter
Medical Director of EHA Clinic
Singapore

Dr. Elias Tam is President of the Singapore section (2016-2017), one of the International Executive Council Members and the Secretary of Pacific Federation of The International College of Surgeons, a membership committee member of the Asia Association of Hair Restoration Surgeons and a committee member of the Society of Men's Health of Singapore.

Dr. Tam is a speaker on the international circuit of Aesthetic Medicine conferences and seminars. He also started the Myface Cadaveric Workshop in 2010 to provide advanced hands-on training for doctors, and the Myface Public Forum to empower the public and help clear up any myths and misinformation about aesthetic treatments.

With the goal of expanding on the skill-sets of both established medical practitioners and newcomers to the industry, Dr. Elias Tam has conducted training (and is also a trainer) for various pharmaceutical companies (including Galderma, Allergan, Merz, Ipsen and A-menarini), as well as for laser applications.

Dr. Tam also heads his own aesthetic clinic, which is conveniently located at Shaw Centre in Orchard.

MYFACE CADAVERIC COURSE 2018

13 – 14 May 2018

Academia, Singapore

LOCAL FACULTY

Dr Victor Fan

Oral & Maxillofacial Surgeon
Gleneagles Hospital Medical Centre,
Singapore

DR VICTOR FAN is a medically qualified oral & maxillofacial surgeon who practices the full scope from wisdom teeth / dental implant surgery to complex oral cancer resection, neck dissections and microvascular reconstruction. He is now in private practice as a senior consultant Oral & Maxillofacial Head and Neck Surgeon in Gleneagles Medical Centre. Prior to private practice, he was an assistant professor with the Faculty of Dentistry of National University of Singapore and senior consultant surgeon at the National University Hospital with a practice in surgical oncology and microvascular reconstructive surgery. Besides surgical oncology, he has an active interest in aesthetic facial surgery and he is a member of the European Association of Facial Plastic Surgery. He had lectured on aesthetic surgery in international and local symposiums and is actively engaged in facial aesthetic surgery in private practice. He is the course director of the first Singapore MOH approved local faculty course on Facial Aesthetic and Rejuvenation using Botox which grants certificate of competency to dentists intending to practise facial rejuvenation procedures.

LOCAL FACULTY

Dr Fong Poh Him
Consultant Plastic Surgeon
Institute of Plastic Surgery
Singapore

DR FONG POH HIM graduated in 1976 from the National University of Singapore with M.B.B.S. After his internship, he underwent basic surgical training and obtained his surgical fellowship from the Royal College of Surgeons of Edinburgh, United Kingdom in 1981. He pursued further training in the subspecialty of Plastic and Reconstructive Surgery and became a fellow of the Academy of Medicine, Singapore in 1984. He was enrolled in the Specialist Register for Plastic Surgery at the same time. He was in the Department of Plastic Surgery, Singapore General Hospital. Following years of experience as a consultant plastic surgeon, he ventured into private practice.

Dr Fong is a visiting consultant to the National Skin Centre. He is also a visiting consultant plastic surgeon to the Department of Surgery, Tan Tock Seng Hospital. He has been on medical mission trips since the 1980s, mostly in Asia – Myanmar, Cambodia, Philippines, Indonesia, China and India.

His specialty practice includes cosmetic surgery of the eyelids, nose chin, face and ears. Double eyelids are created with stitch or laser techniques. Asian noses with low bridge and weak chin are augmented with implants. Bulbous tip is refined and broad alars are reduced. Prominent ears are set back. Aging face with cheek droop and prominent Nasolabial folds may be lifted with a short indistinct scar. Body contouring with liposuction is commonly done for the abdomen, thighs, arms, back and chin. Small breasts are augmented with implants and large sagging breast are reduced and lifted. Long and sagging nipple is reduced and lifted. Cosmetic laser treatment for pigmentations like sun spots, age spots, moles and skin lesions. Laser resurfacing is done to smoothen acne scars. Tattoos are removed with minimal scars and unwanted hairs are removed permanently with laser. Botox is used for treating wrinkles and to contour the face. Collagen fillers are used for augmenting deep lines and contouring.

In reconstructive surgery, he has a special interest in breast reconstruction following mastectomy. Both methods using implant or own tissue from the abdomen or back can be used. Congenital cleft lip and palates are managed with a team of surgeons and therapists. Asymmetry of facial expression due to facial palsy can be corrected with muscle transfer to reanimate the face. Deformities or skin defect after trauma or surgery may be reconstructed with skin flaps using microsurgical techniques to restore form and function.

MYFACE CADAVERIC COURSE 2018

13 – 14 May 2018

Academia, Singapore

LOCAL FACULTY

Dr Leo Seo Wei
Senior Consultant Ophthalmologist
Mount Elizabeth Hospital
Singapore

DR LEO SEO WEI graduated from National University of Singapore in 1996 with the Gold Medal in Ophthalmology. She obtained Fellowship of Royal College of Surgeons of Edinburgh and Fellowship of Academy of Medicine Singapore in 2004. After passing the United States Medical Licensing Examinations, she completed 2 intensive clinical fellowships in the United States (Ann Arbor and Los Angeles). Prior to starting private practice, she was Head of Paediatric Ophthalmology and Strabismus, National Healthcare Group Eye Institute.

Bestowed with numerous service excellence and research awards, she has published several peer-reviewed articles, and presented and performed live surgeries at international conferences in Asia-Pacific, Europe and USA. She is a committee member of the American Academy of Ophthalmology 2016-2017. She is also a reviewer for many journals including Survey of Ophthalmology, British Journal of Ophthalmology. She is currently in the Scientific Bureau of the World Society of Paediatric Ophthalmology & Strabismus and is the external scientific member Centralised Institutional Research Board, Singhealth.
